London, UK

Italian / Brazilian

I am a young professional living, working and studying in London since mid 2004, What I like the most is to develop applications that are usable, look beautiful and really add value to my clients business.

+ Career

<div>Apr 14 - Date</div> <div>Freelance Software Developer</div>	Working with several software development agencies and technology business such as Upcast Social (a MediaMath company), Cyber Interactive and Believe Creative. Taking on projects that include different technologies such as Angular.js, Laravel, Symfony, CSS3, HTML5, AJAX and jQuery. Working under Agile methodologies using Jira and Trello. Combining productivity tools such as Git-flow, Grunt, Gulp, Bower and Yeoman. Working not only as a developer but also providing guidance on the best technologies to be used and tracing the most appropriate plan of action.
<div>Mar 13 - Mar 14</div> <div>Software Developer</div> <div>Cyber Interactive</div>	As a Software Developer at Cyber, I had the chance to expand my web development skills, taking part in an array of projects combining many different technologies, from CMS websites to the innovative Onboarding system. Working on an Agile/Scrum environment with technologies such as HTML5, CSS3, Codeigniter, jQuery/Javascript, PHP and MySQL along with Git version control in a LAMP stack.
<div>Apr 10 - Mar 13</div> <div>Reports Developer</div> <div>CFS Europe</div>	As a Reports Developer at CFS-Europe, I was in charge of maintaining, supporting, optimizing and developing SSRS reports and Web Surveys. Working with technologies such as Microsoft SQL, HTML, CSS, jQuery and C# in a .NET environment as well as PHP and Flash/ActionScript as complementary technologies where appropriate.
<div>Feb 05 - Jul 07</div> <div>Various</div>	Other jobs have included I.T. technical support, helpdesk, waitressing and family business.

+ Education

<div>First Hons</div> <div>Sep 12 - Jun 15</div> <div>BSc Computing</div> <div>Birkbeck University of London</div>	This course covers most state of the art techniques in computer science, including Cloud Computing, Artificial Intelligence, Middleware, Information Security and most Programming Language Paradigms. Yet, not leaving common topics such as OOP, Database Managent and Software engineering overseen.
<div>Distinction</div> <div>Sep 08 - Jun 11</div> <div>FD Web Technologies</div> <div>Birkbeck University of London</div>	From discrete maths to advanced OOP, this course covered all major modern topics in the realm of web development such as Databases, Typography and Web Standards. Also covering a concise introduction to business management and financial accounting.
<div>Distinction</div> <div>Feb 06 - Dec 06</div> <div>Computer Networks</div> <div>Lewisham College</div>	Achieved a Distinction in this course that focuses on principles of electronic engineering and operating systems, covering all basics of modern computer networks with a good blend of theory and practice.

+ Skills

.Programming
