DAVID SAJDL
WEB DEVELOPER

I have studied computing for over 8 years, including practicing coding by using different programming languages. During this period I have continued developing programming skills and have developed several applications. I seek to continue to find the best environment to conduct my knowledge and experience in more.

+ Career

Feb 14 - Apr 14
Maintaining Services
Maintainer

Maybe we can write a bit more here, like, how did you make a difference, why was better to hire you then someone else... Also write about what you did here, is the name of the company maintaining services?

Nov 10 - Feb 13
Hilton Hotel
Data Entry Clerk

Data entry into excel and internal system and data management control.Organising and prioritising tasks and dealing with other stakeholders via phone. Maybe we can write a bit more here, like, how did you make a difference, why was better to hire you then someone else...

Oct 09 - Apr 10
Volunteer
Shimon Boliver Secondary Grammar School, Ecuador

Teaching English language and organising children's activities. Maybe we can write a bit more here, like, how did you make a difference, why was better to hire you then someone else...

Feb 05 - Jul 07
Various

Other jobs have included bar assistant and family business.

+ Education

First Hons
Sep 13 - Jun 15
BSc Computing
Birkbeck University of London

Programming, Artificial Intelligent and Web Development. We probably need to write more here, like the stuff we left behind in the skills bit, like Dominoes etc... Make it personal, here is where you want to shine :)

Distinction
Sep 11 - Jun 14
FD in Information Technology
Birkbeck University of London

Problem solving in programming, Mathematics and UML Information System Management. We probably need to write more here, like the stuff we left behind in the skills bit, like Dominoes etc... Make it personal, here is where you want to shine :)

96 Credits Lv 3
Sep 07 - Jun 09
Access to Higher Education Diploma
Tower Hamlet College

English Literature, Computing, Mathematic and Business Studies... we probably need to write more here...

+ Hobbies

Regularly checking for new programming technologies and applying to real world applications
Add something that talks about you, not programming, like playing tennis or something like that
